DEPARTURE OF GOVERNOR SCOTT .-Governor Scott, who goes North with the view of completing some financial arrangements of the State, and also in the interests of the Blue Ridge Railroad, leaves the city by the North-eastern Railroad this morning. He is accompanied by the following gentlemen: General J. W. Harrison, President of the Blue Ridge Railroad; Hon. F. A. Sawyer and Messrs. Henry Gourdin, James H. Taylor, W. S. Hastie, W. H. Trescott and

W. A. Courtenay.
The departure of the Governor is the strongest evidence of the peace and tranquility of affairs in the State. The Governor, we learn, expressed himself as perfectly satisfied and pleased with the quiet and order that accompanied and succeeded the late election. A number of leading Demoerats in the up-country, after the result was announced, waited on the Governor and declared their determination to accept cheerfully, and abide by, the decision of the people. They signified their readiness to stand by and support the State Go-vernment in its acts, and to use all their influence in inducing the people throughout the State to do likewise.

In reply the Governor expressed the great pleasure their visit had given him, and his belief that this action on their part would do more to restore unanimity among our peo-ple, and place the credit of the State where it deserves to be, than any special political expression or doc-trine could ever possibly effect. He expressed the belief, owing to the small debt of the State in comparison with the liabilities of others, that with a successful administration of the State Government and acquiescence and harmony among the people, South Carolina, by internal improvements and otherwise, must in a short time become financially one of the foremost States of the Union, as she was already, from her climate and geographical position, one of the most attractive.—Charleston News.

RESISTING PROVIDENCE.

1 IFE INSURANCE enables a man to put hinself in harmony with Divine Providence. Providence has brought the institution into being to bless the race. appear as an attempt to controvert the Divine will."

Thousands of widows and orphans live to attest the divine beneficence of LIFE INSURANCE. Without its protecting segis, many of them would, to-day, be beggars upon the streets, or occupants of poor-bouses and penitentiaries. No man can foretell what will be his circumstances at the time of his death. The rich man of to-day dies the pauper of to-morrow, and the family, delicately reared, become the unprepared victims of dire Want, with her train of countless evils. Such a result is impossible, with a policy of Life Insurance. It, indeed, offers the only absolutely safe investment which can be made for the benefit of one's family and of his own old age. All other investments may result in loas or rnin. If all would insure, who can calculate the immense suffering and crime which the world would be spared! MITNA LIFE INSURANCE COMPA-
